# Action Planning for Community School Readiness:

---

## 10:15-10:30 Table Introductions / Roles

- What is your role in this community partnership group?
- What are your individual needs / priorities?
- How do you think this will shape your participation?

## 10:30-10:45 Read your School Profile:

- What are the demographics?
- Where is your school located?
- What are the hard and soft resources that you have available?
- What other factors are effecting your school community?

# Needs Assessment Activity:

---

## OSP School Snapshot

Goal of this tool:

- Identify the issues and challenges that relate to your identified problem. What resources are available, which people would be most helpful and what else would you need to address it?

## Additional questions

- Who is contributing to solutions to the needs already?
- Have other schools/neighborhoods dealt with similar issues?

# Community Schools Readiness Checklist

---

Goal of this tool:

- Identify the key components of a community school.
- Assess which components a school has and which ones could be achieved.
